Education

Dominican College of Tarlac Capas, Tarlac
Bachelor of Science in Information Technology April 2026
CCS Nexus: A Web-Based Rubric Grading System for Capstone Project
UI/UX Design, Front-End Development

Experience

TARELCO II TARLAC II ELECTRIC COOPERATIVE, INC San Nicolas, Concepcion
Front End Developer & Media Editor December 2025 – March 2026

- Completed 486 hours of hands-on training across three departments (SCADA, ISD, and ITD), handling diverse projects in software development, hardware setup, and multimedia.
- Built a full-stack task management system for the Electric Department, creating both the front-end user interface and back-end database to make daily project tracking easier for the team.
- Configured network connectivity for CCTV systems out in the field, ensuring reliable connections and clear camera feeds for remote site monitoring.
- Edited photos and produced video content during department rotations to support internal communications and visual presentations.

Dominican College of Tarlac Capas, Tarlac
Project Manager January 2025 – November 2025

- Managed the complete development lifecycle of a web-based grading system, coordinating schedules and deliverables for a team of student proponents.
- Facilitated regular team meetings to track project milestones, ensuring all technical requirements were completed ahead of strict academic deadlines.
- Oversaw system documentation and quality assurance processes, identifying workflow bottlenecks and delegating solutions to the development team.
- Presented the project scope, methodology, and final system execution to faculty evaluators during comprehensive academic title defenses.

Leadership & Activities

TARELCO II Corporate Events San Nicolas, Concepcion
Event Volunteer March 2026

- Assisted on the event as registration line for the invited guest of the event.
- Coordinated with event staff to direct crowd and traffic resolve immediate guest inquiries on the floor
